SC WIND AND COVID-19

SC Wind is open and operating with normal business hours. The Producer Portal continues to be available 24/7.

In the event of a loss, adjusters are available to respond.

With concerns about the COVID-19 Virus, SC Wind is reducing the number of employees physically in the office. Many of our employees are currently working from home and come into the office on a limited basis.

Be assured that business is being processed, policies and checks issued, claims handled, phone calls are being returned and emails being answered as quickly as possible.

At SC Wind, it is business as usual in an unusual environment. No doubt, you are experiencing a similar situation as we all try to stay safe while providing the service that our clients expect and deserve.

As we adjust to this challenging time, we encourage you to follow the CDC guidelines on protecting yourself and your families.

Please stay safe.
