

June 13, 2006

TO: ALL PRODUCERS

TS ALBERTO

Tropical Storm Alberto is approaching the Florida Coast. The projected path indicates that the storm will impact the South Carolina Coast.

Strong winds and heavy rain may occur; however, the storm should weaken by the time it enters our state.

The Association will **NOT** be implementing the Single Adjuster Program. Please report any claims to:

- SC Wind claims to the Association Office.
- Flood claims to your flood carrier.
